AGRICULTURAL EDUCATION IN AUSTRIA

APPRENTICESHIP AND SKILLED WORKER'S TRAINING

PROGRAMS INCLUDE 15 different types of vocational training, from horticulture to apiculture. The duration of the training is, regularly, three years and takes place within the framework of a dual training system, at the enterprise qualified to train apprentices and at the vocational school.

www.lehrlingsstelle.at

COLLEGES FOR AGRICULTURE AND FORESTRY

AFTER FIVE YEARS AT SCHOOL (or three years of advanced training course) graduation with the national school-leaving exam entitling to university studies called Matura. Nine different vocational orientations are offered, ranging from agriculture and nutrition, forestry, food- and biotechnology to environmental and resource management.

www.agrarschulen.at

VOCATIONAL SCHOOLS FOR AGRICULTURE AND FORESTRY

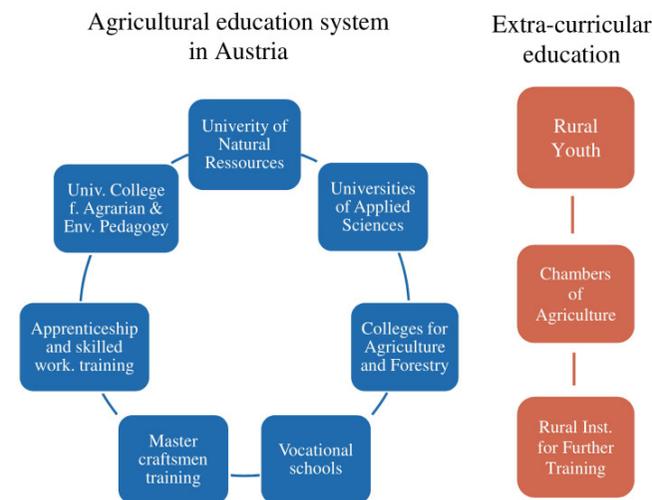

VOCATIONAL SCHOOLS attach great importance to a wide variety of career opportunities. The duration of the training at the more than 80 vocational schools all over Austria ranges from one to four years; graduation as skilled worker. There is the opportunity to acquire other additional qualifications, such as "wine manager" or "agricultural merchant".

www.agrarschulen.at

MASTER CRAFTSMEN TRAINING

A MINIMUM OF THREE YEARS of professional experience and a minimum age of 21 years are required. After the completion of the training it is possible to run an agricultural enterprise.

www.lehrlingsstelle.at

UNIVERSITIES OF APPLIED SCIENCES

UNIVERSITIES OF APPLIED SCIENCES exist with agricultural and environmental orientation. Agricultural technology is planned on two locations from autumn 2018 onwards. After six semesters you can graduate as a bachelor, after additional four semesters as a master.

www.fachhochschulen.ac.at

UNIVERSITY COLLEGE FOR AGRARIAN AND ENVIRONMENTAL PEDAGOGY

THE STUDY PROGRAM comprises training in the professional fields of agricultural and environmental education. After eight semesters you can graduate as Bachelor (BEd), with two additional semesters as Master (MEd). There is also the possibility of studies for craftsman masters with vocational experience parallel to their work.

www.agrarumweltpaedagogik.ac.at

UNIVERSITY OF NATURAL RESOURCES AND LIFE SCIENCES

THE UNIVERSITY of natural resources and life sciences is a teaching and research institution for renewable resources at university level. Eight bachelor, 27 master and four doctoral studies are possible. The graduation will be after six regular semesters (Bachelor) and/or after additional four semesters (Master).
